1. The referenced memorandum from the President (Ref A) approved the 1985 Intelligence Capabilities Study, in which many of you participated last year, as a basis of Intelligence Community long-range planning. Accordingly, the Director of Central Intelligence has now asked that we proceed to the next step in the Community's strategic planning process, an update of the Capabilities Study plus an in-depth examination of selected important factors, both within and outside the Community, which will impact on our ability to assure an adequate uninterrupted flow of intelligence well into the next decade (Ref B). The terms of reference for this undertaking have been approved by the DCI and are attached. []

chaired by [redacted] Director of the Intelligence Community Staff's Office of Planning, and which will serve under the purview of the Steering Group. Therefore, I am asking that you appoint a member of your staff to serve on the Working Group. This individual should be knowledgeable of your anticipated intelligence needs and capabilities and should be authorized to draw freely upon various elements of your organization for support. It is not necessary that he or she be relieved of all other responsibilities while serving on the Working Group, but Working Group business must take precedence if the time schedule for completing the update and the in-depth studies is to be met.
